Sir:

Applicants representatives have received a Notice dated August 6, 2008 in the above-identified patent application. The Notice is regarding a power of attorney that was allegedly filed in this application. However, the power of attorney that was attached to the notice was in respect of an unrelated PCT application. Upon investigating Private PAIR, the undersigned representative notes that seven documents relating to at least four unrelated PCT applications have been scanned into the electronic file wrapper of the present application on February 13, 2008. These documents relate to at least PCT/US2006/031183, PCT/US2007/082884, PCT/US2007/021890, and PCT/US2007/06680. Some of the scanned documents cover more than one unrelated PCT application, and therefore some cannot be identified. None of these applications were filed by the undersigned representatives, nor by the applicant of the present application.

The undersigned representative requests removal of the extraneous documents from the electronic file wrapper of the present application, and notes that the notice regarding power of attorney was issued in error.

Respectfully submitted,

AKERMAN SENTERFITT
